

Resistant Art Festival

***Alternative Culture against liberty deprivations and standardization of people and culture
Art is our weapon!!***

They are 8. The 8 most powerful presidents, who, each year, dressed in their \$9999 suits, take the right to impose their choices to the whole planet.

As an act of civil disobedience, we will blockade this summit. The G8 world is a world of wars, poverty and misery, loss of social and democratic rights, and environmental destruction. This year, they will also decide on whom our artistic creations (intellectual property rights) belong to and how to control our means of spreading them (information and communication control, especially on the net). There will be no room left for Free, Amateur and Autonomous Arts and Spaces...

With all those who fight against this domination from the "world masters", we will demonstrate, through our Free Arts, debates and struggles, that we can overthrow their new order, that a fair and equal world is possible and that our utopia is concrete!

As they exploit the whole world, this G8 must be the last !

As you can imagine, authorities were not very willing to support protesters in finding Camp Places. Far from it! Repression, as an attempt to demobilize us, was increasing in the last weeks but most of their efforts failed, turning their propaganda against themselves.

They have only allowed 3 camps, all far from each others, to try to break our coordination. These camps were granted thanks to the hard work of the Camp07 group but the state asked for signing contracts and paying a caution which makes that this camps needs to ask a paying entry to the camp (the Camp07 group will also provides water and electricity)...

This was too remote from our objective of setting up a truly autonomous camp. If we want to demonstrate that our utopia is concrete, we have to prove it with our actions!

Moreover, the 3 camps can only accommodate about 15 000 people. We therefore need to provide additional spaces for activists to rest and prepare actions, groups to network and anybody else taking part to the protest to have somewhere to stay even if comfort is more

basic than in the "authorised" camps.

Our camp will allow a wide range of artistic expressions with sound systems grouped in rigs, bands, visual arts, performances and a spray wall... There will be lots of scope to share information with videos and speeches about activism, repression and alternatives, as well as workshops, an alternative media point to spread news on the net and an infopoint... Of course, food and drinks will also be available on site.

If you have further ideas and would like to take part, we welcome any initiatives/projects/actions...

You will need to bring basic camping equipment (at least a tent and sleeping bags) as well as water and food supplies (remember what means « autonomy »).

What is also really important is for you to bring a small PMR Radio walkie-talkies [2] because all the coordination, not only for our camp but for all actions in general, will be through radio.

On the 2nd June, following the demo, we will disclose through the radio the meeting point where to gather to reach the camp. You will find all info on how to prepare yourself, what to take, and what is legal or not on websites such as free4, gipfel and dissent [3]. There will also be details of actions and contacts if you need help during the actions (first aid, legal help,...)

Camps and actions are based on DIY and autonomy so please prepare banners/ideas/paint and balloons/flyers/ and everything else you can think of...

If you are interested in being actively involved in the autonomous camp, get in touch and let us know:

What are you planning to do?

When will you arrive?

Do you need anything?

Do you have a generator and if not, how many Kw do you need?

If you are fully autonomous and not really willing to let us know who you are for reasons that are yours, we will of course respect your choice and welcome you anyway 😊

For special questions, use our GPG-PGP public key [4]

Thanks

Free4

BRING YOUR RADIO -----> G8 Infostystem !!!!!

PMR-Info-Radio

To spread the latest news there will be a PMR-Info-Radio. It's part of the Infosystem and like Infopoints and Infotelephones it will inform you about the latest news about demonstrations, blockades and actions. You can reach it around Heiligendamm and Rostock-Laage during the Action days. PMR means "Public Mobile Radio". This are a small type of walkie-talkies that you can legally buy and use. Usually the broadcasting range is about 0.5 km to 5km, depending strongly on surroundings (town, mountain, forest, field,...). But to receive the Inforadio you don't need to send - the PMR receives the news like a usual radio. Due to

norming you can buy the PMR all over Europe for about 20 € better quality for about 40 € usually you get two for that price. Make sure that they have a connection for headphones. In between broadcasting times the walkie-talkies can of course be used for communication in between groups in the closer action radius.

During actions, news will be broadcasted by PMR radios every hours at approximatively xxh45 on channel 3.

[2] on the main page you find all the Adress of the Infopoints and much more useful Infos:
